

# Action programmes 2017-2020

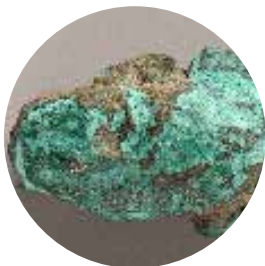

## **MEDIATION between public science, cultural heritage and other sectoral policies:**

Actions to strengthen the IAPH's role as an intermediary, driving dialogue and relations between the various actors

## **STANDARDISATION of methodologies and scientific and technical recommendations on cultural heritage:**

Manuals, guides and recommendations drawn up in conjunction with the sector from the methodologies, technologies and practices generated by the IAPH

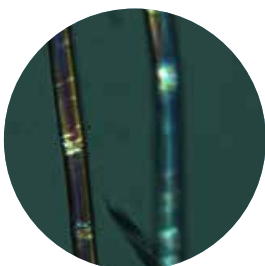

## **TECHNICAL ASSISTANCE and SPECIALISED SERVICES:**

Projects supporting the Administration for guardianship of heritage, and as services to third parties

## **INNOVATION in cultural heritage management:**

Activities that improve cultural heritage management through social participation

## **R&D&I positioning:**

Plans and actions to qualify and optimise the human resources, infrastructure and document resources that make up the R&D&I stimulus at the IAPH

### **OPEN KNOWLEDGE:**

Open access applications to disseminate knowledge on heritage

### **SCIENCE CULTURE:**

Activities such as UCC+i for education and scientific dissemination of cultural heritage

### **TRAINING of specialists: Cultural Heritage School**

Training and editorial activities targeted to the latest needs of the professional sector and production network

### **LAP. Heritage Open Laboratory:**

Initiatives based on a philosophy of openness, which generate new connections with the production network, agents of heritage and the public

### **EXCELLENCE in management:**

Actions for more efficient, transparent organisation
